Position Overview

Role: Data Manager

Number of Position: 1

Project: SAHARA

Location: Bhopal, Madhya Pradesh

Time: Full time (5 days a week/42 hours)

Pay Range: Upto 50,000 INR/Month (Max).

About the organization-

Sangath is one of India's leading mental health research non-profit organization. It was founded in 1996 with its headquarters in Goa; major hubs in Delhi and Bhopal, and project sites in many parts of the country. Sangath's mission and expertise lies in developing and evaluating mental health interventions to be delivered through existing public systems. Its major thematic areas are: Perinatal depression, child development and disability; adolescent health; mental disorders; and ageing.

About project-

With the support of Infosys Foundation, Sangath aims to scale up evidence based 'task sharing' interventions for perinatal mental health and early child development through delivery of comprehensive primary mental health care for first 1000 days of life.

Sangath has successfully digitized Thinking Healthy Program- Peer (THPP) delivered; an evidence-based task sharing intervention for perinatal depression and ASPIRE; a video-based parenting intervention for early child development.

We aim to scale these twin interventions across 8 districts of Madhya Pradesh by digitally training community-based workers (ASHAs and Anganwadi workers) and provide them continuous supervision.

About the role-

Sangath is recruiting a Data manager for Infosys Foundation EMPOWER Programme based in Bhopal district. The Data Manager will lead the development of data collection tools, implementation, analysis and ensuring fidelity and quality of data. The Data Manager will contribute for developing Standard Operating Procedures (SOPs) for data management and analysis in project implementation and research. The Data Manager will be required to move across the implementation sites in the state of Madhya Pradesh for monitoring and checking the data quality.
